

Agricultural Fertilizer Applicator Certification

Training for those with _____ or without a pesticide

<http://muskingum.osu.edu/program-areas/4-h-youth-development/forms-and-documents>

Fulfills certification requirements

This meeting will fulfill the requirement for applicators who need the agricultural fertilizer applicator certification. Those with a pesticide applicator's license will participate in a two hour program and those without a pesticide applicator's license will need to participate in an additional hour of training at the session. Individuals have until 2017 to become certified as a fertilizer applicator.

Who needs the agricultural fertilizer certification?

Fertilizer certification is required if you apply fertilizer (other than manure) to more than 50 acres of agricultural production grown primarily for sale. If you hire a co-op or other custom applicator to make your fertilizer applications, you do not need the certification.

What will be covered in the training?

- **Thursday, March 12, 2015 - 6:00 p.m.** and repeated again on **Thursday, March 19, 2015 - 12 Noon.**

- Both sessions will be held at: *OSU Extension Meeting Room, 225 Underwood St., Zanesville*

- **Pre-registration is required.** Pre-registration is required because of limited space in the room. There is no charge for the program.

- For questions, call the office: 740-454-0144 or email: mehling.1@osu.edu
